Vignesh Acharya	Post	Hr@jyesta.com		<p>#Hiring</p> <p>: ()</p> <p>: Jyesta Corporate Entity Pvt. Ltd.</p> <p>: Jyesta Corporate is a leading EdTech company bridging the gap between academics and industry through cutting-edge training and internship programs. In collaboration with Wipro Dice, NSDC, AICTE, and Skill India, we equip learners with in-demand skills using real-world projects and expert mentorship.</p> <p>: Jyesta Corporate Entity is seeking a Full stack Software Engineer Intern to join our fast-moving EdTech startup. You'll work directly under the Chief Technical Officer, contributing to our core Learning Management System (LMS), debugging production issues, and building a new React Native mobile app for learners. This high-impact role offers hands-on experience across web and mobile development, DevOps, API integrations, and user support in a real-world, fast-paced startup environment.</p> <p>:</p> <ol style="list-style-type: none"> 1. Enhance and maintain the LMS web platform (Next.js) 2. Build new features and troubleshoot live production issues 3. Collaborate with content and ops teams to resolve learner challenges 4. Contribute to mobile app development using React Native (Expo) 5. Write clean, scalable code and maintain technical documentation 6. Debug backend APIs and integrate third-party services 7. Respond to support issues via email and internal logs 8. Assist in DevOps tasks such as deployment and monitoring <ul style="list-style-type: none"> • Recent graduate (or final year student) in CS/IT or related field • Must have a strong understanding of JavaScript/TypeScript • Prior experience (academic or project) in Next.js • Proficient with Git and command-line basics • Excellent written communication (especially for email-based support) <p>Bonus Skills (Nice to Have)</p> <ul style="list-style-type: none"> • Familiarity with React Native / Expo • Working knowledge of MongoDB, Redis, and Prisma ORM • Experience with Docker, GitHub Actions, or MUX • Understanding of CI/CD pipelines or job queues like BullMQ <p>,</p> <ul style="list-style-type: none"> • Mentorship directly from the Chief Technical Officers. • Real-world experience in building and scaling LMS products • Hands-on work across both web and mobile platforms • Exposure to live user support and infrastructure management • Potential for pre-placement/full-time offer based on performance <ul style="list-style-type: none"> • Duration: 6 months • Stipend: ₹ 15,000 - 18,000/- per month. • Full-Time CTC: Up to ₹ 5 LPA (on performance-based) • Working Hours: 11:30 AM to 8:30 PM • Workdays: 6 days per week (Week off: Wednesday). • Location: BHIVE AKR Tech Park, Bangalore, <p>Interested candidates may submit their resumes to Hr@jyesta.com with the subject line: Name – Software Engineer Intern (Full Stack).</p> <p>#hiring #opportunity #Technology #technicalhiring #softwareengineer #fullstackhiring #placement #tpo #freshers #Bangalore</p>
Krishna swetha	Post	KSswetha@techieassociates.com		<p>Kickstart your career in Techie Associates -Guidewire Training program for Freshers in Bengaluru.</p> <p>Are you a recent engineering graduate looking to start your career in a high-demand tech domain? We're offering a Specialized training program in Guidewire – one of the fastest-growing platforms in the insurance technology sector.</p> <p>Teche Associates if offering a Specialized Guidewire Training Program</p>

Jackson Maina	Post	info@devnex.co.ke		<p>Is AI's impact on software development accelerating faster than we think, especially in Europe? Lately, I've been deep-diving into how AI-driven development and agentic AI are truly reshaping engineering workflows, particularly in Cloud-native environments. The efficiency gains are incredible, but the ethical considerations are equally fascinating.</p> <p>As a Software Developer from Kenya with expertise in Python and JavaScript (Angular, React), I'm passionate about building scalable solutions that leverage these advancements. I'm actively seeking roles in Europe where I can contribute to cutting-edge projects in AI, Cloud, and DevSecOps.</p> <p>Would love to hear your thoughts on this! What's your take on the speed of AI adoption in your teams or region?</p> <p>Portfolio: devnex.co.ke Email: info@devnex.co.ke WhatsApp/Call: +254737692634</p> #AI #SoftwareDevelopment #CloudNative #DevOps #Python #JavaScript #EuropeTech #Hiring #OpenToWork
Jackson Maina	Post	info@devnex.co.ke		<p>Excited to share my journey and connect with innovative teams!</p> <p>As a Software Developer from Kenya, I'm passionate about crafting impactful solutions and diving deep into the tech trends shaping our future.</p> <p>My core expertise spans:</p> <p>Frontend: Robust skills in JavaScript (Angular, React) – building intuitive and dynamic user experiences.</p> <p>Backend: Strong command of Python – creating scalable and efficient server-side applications.</p> <p>I'm particularly enthusiastic about the transformative potential of AI-driven development, Cloud-native architectures, and ensuring robust DevSecOps practices. The evolution in these areas is truly inspiring, and I'm constantly honing my skills to contribute to cutting-edge projects.</p> <p>I'm actively seeking challenging Software Developer roles across Europe where I can leverage my full-stack capabilities and passion for innovation. If you're building something groundbreaking, or know of opportunities that align with my profile, I'd love to connect!</p> <p>Let's explore how my skills can contribute to your team's success.</p> <p>Visit my portfolio: devnex.co.ke Email: info@devnex.co.ke Connect on WhatsApp/Call: +254737692634</p> #SoftwareDeveloper #FrontendDeveloper #BackendDeveloper #Python #JavaScript #Angular #React #AIDevelopment #CloudNative #DevSecOps #TechJobs #EuropeTech #SoftwareEngineering #CareerOpportunities #Hiring #KenyaTech

Syed Moin	Post	zaid.anwar@pentangletech.com	5 , 6 , 7	<p>Hello, Everyone we are pleased to inform you all that we have a job position of “Principal System and Electrical Engineer” Located in “Foster City, CA” on W2. If you are interested, then do share me your resume on zaid.anwar@pentangletech.com or give me a call on +1 248 246 5812</p> <p>Job Title: Principal System and Electrical Engineer Location: Foster City, CA Duration: Long Term</p> <p>Job Description :-</p> <p>Need experience with SAE automotive systems into Siemens Capital tool experience</p> <p>Role Summary: Leverage advanced electrical integration expertise to lead the definition and validation of system-level electrical architectures at Client. This role is central to translating domain-specific configurations into a robust architecture baseline, interfacing across system, validation, and offshore teams to ensure seamless collaboration and traceability.</p> <p>Key Responsibilities: Drive the development of the complete electrical architecture using Siemens Capital and other modelling tools. Define ECU signal interfaces, high-voltage and low-voltage network topologies, and system integration patterns aligned to vehicle requirements. Utilize hands-on experience in BMS, HV distribution (e.g., HV-BJB), and safety-critical design for architecture validation. Bridge onshore and offshore collaboration by mentoring teams in India/Mexico on harness design, signal integrity, and embedded validation. Apply DFMEA and FTA principles during architectural reviews to proactively identify design risks and failure modes. Contribute to Digital Twin validation environments by preparing schematics, harness topologies, and PCB design insights for simulation fidelity. Act as a focal point for system-level debugging, particularly where electrical/software interfaces intersect (CAN, UART, SPI). Lead and document design reviews, present validation results, and influence architectural decisions based on real-world implementation constraints.</p> <p>Key Deliverables: Siemens Capital-based electrical domain models and network schematics. Signal flow and interface validation reports (covering CAN, J1772, S32 ARM Cortex-M7 interfaces). DFMEA and Fault Tree reports on system-level circuits (HV/LV). Collaborative feedback and mentoring documentation from offshore integration teams. Integration-ready PCB assets aligned to UL standards and vehicle safety requirements.</p> <p>Qualifications and Match to Role: 5+ years of hands-on electrical integration across BMS, power management, and charging standards (J1772, J3068). Strong knowledge of Siemens Capital, Altium, and system validation in high-voltage (400V–480V) environments. Demonstrated ability to execute multi-disciplinary engineering in collaboration with software, mechanical, and harness teams. Expertise in DFMEA, HDI PCB, and UL compliance processes for EV platforms. Prior experience mentoring interns and leading cross-functional technical sessions, aligning well with leadership expectations in this role.</p>
